

S&C Capital Markets Consultant

We are looking for passionate, curious and driven team players who are ready to ignite ideas, push boundaries and drive innovation. At Accenture you'll work on innovative projects and develop your career, collaborating with the best teams in the world. You'll learn, grow and advance in an innovative culture that thrives on shared success, diverse ways of thinking and enables boundaryless opportunities that can drive your career in new and exciting ways.

About Accenture

Accenture is a leading global professional services company, providing a broad range of services at scale in strategy and consulting, song, technology and operations, with digital capabilities across all off these services.

We combine unmatched experience and specialized capabilities across more than 40 industries – powered by the world's largest network of Advanced Technology and Intelligent Operations centers.

With 513,000 people serving clients in more than 120 countries, Accenture brings continuous innovation to help clients improve their performance and create lasting value across their enterprises.

About the role

Strategy & Consulting professionals help transform the world's leading organizations, working across the C-suite to capitalize on disruption, enable competitiveness, and drive growth and profitability via continuous innovation.

We are currently looking for a consultant based in Madrid / Barcelona.

Job description

As a Capital Markets consultant, you will participate in projects to help investment banks, wealth and asset management firms, exchanges and other market infrastructure firms prepare for the markets of tomorrow.

Leveraging global strategies and data-driven insights, our capital markets practice aims to help firms rethink their business models, accelerate growth, improve operational efficiency, manage risks, redefine talent strategies, integrate sustainability at the core of businesses and more.

We offer you the opportunity to join to one of our different tribes where you can increase your knowledge and specialize in the solutions and capabilities demanded in the capital market industry to lead the change:

- Platforms
- Asset Management & Wealth Management
- Trading
- Securities & Post Trading
- Risk Management
- Regulatory
- Blockchain

Key responsibilities

Suitable candidate should be able to consult with clients offering their subject matter expertise in Capital Markets functions.

Depends on the tribe you belong to, the typical responsibilities would include:

- Assess 'AS IS' and define target operating model (TOM) and Target Process Architecture
- Develop and manage business requirement specification
- Planning and designing User Acceptance (UAT) and Business Readiness Testing
- Change Management
- Project management and onshore/offshore client management
- Strengthen offerings – development of collateral, methodology refinements, best practices updates and trends tracking, create and support proposals incorporating Accenture value proposition

Qualifications

- Bachelor's degree in business, finance or engineering disciplines
- Excellent knowledge of the English language (written and spoken)
- Excellent knowledge of Excel and Power Point package

- Aptitude for teamwork, organizational and problem solving skills, accuracy and attention to details.

Desirable competencies and Skills:

- Excellent communication, presentation and client interaction skills
- Analytical bent of mind with capability of deciding on nature of information needed and the ability to derive business sense of such information
- Think logically and present ideas convincingly
- Initiative in keeping abreast of changing industry practices, analysis and design methods, tools and techniques and emerging technologies
- Ability to develop & maintain working relationships with several stakeholders and senior professionals
